

Compliance Safety Manager™

Helping You Meet and Exceed Safety Regulatory Standards

The challenge of maintaining regulatory compliance, both for equipment and personnel, continues to grow. You must maintain currency with multiple agencies, including OSHA, DOT, MSHA, EPA, and multiple initiatives, such as CSA. Add to these challenges the need to improve operations efficiency, orchestrate internal teams and coordinate between businesses.

To help you tackle this complex landscape, Craig Safety has created Compliance Safety Manager™ **so all our clients can more effectively manage their compliance and safety operations.** Built by safety experts to address safety and compliance needs for industrial operations, Compliance Safety Manager™ is the critical resource that ensures you meet or exceed safety and accountability standards.

Compliance Safety Manager™ delivers an easy-to-implement web-based solution that provides a comprehensive regulatory compliance framework for effective asset management – both personnel and equipment – to ensure that you meet or exceed safety and accountability standards.

Who Uses Compliance Safety Manager™?

CSM is used by individuals throughout the organization, including:

- Risk Manager
- Operations / COO
- HR Manager
- CEO, COO, and CFO
- Fleet Manager
- Maintenance and Shop Manager
- Director of Distribution and Transportation

Compliance Safety Manager™ provides accountability, safety and risk management for personnel and equipment assets — for diverse organizations and industries. This web-based software tool, coupled with supporting services, includes on-site assessments of compliance readiness, safety training, documentation, and prescribing and implementing activities to ensure compliance with federal regulations. As a result, organizations gain and achieve:

- ✓ A centralized, internal resource for safety and compliance information
- ✓ Improved operational efficiency in compliance and regulatory management
- ✓ Proactive alerts and actionable metrics
- ✓ Deep domain knowledge for safety and risk management programs
